

The Company.

Specialist Hygiene Services Ltd is one of the largest independent suppliers of hygiene services in the UK. Formed in 1982 we are a member of the HVCA (Heating and Ventilating Contractors' Association) and a preferred supplier to the Office of Government Commerce Buying Solutions.

SHS Specialist Hygiene Services Ltd's field of operations covers the British Isles and has resources to carry out work throughout these regions for many of our services. Managers, Supervisors and Team leaders are trained via courses run by the British Institute of Cleaning Sciences or the Royal Institute of Public Health.

Our friends / clients are large commercial organizations (such as the Royal Mail, John Lewis and Oxford University colleges), government and a large portfolio of local authority building cleaning. The services we provide are as listed with a **FREE of CHARGE** survey and quotation for each.

"With regards to the Deep clean. I would like to express my thanks for a job well done. Chef has advise that this was one of the best deep cleans he has seen. Please pass our thanks to Hector and his team."

-Manufacturer

"Very pleased with work and additional requested work"

-Commercial kitchen

"It makes my life better when I am able to work with professionals who produce these results, so all thanks to you and your team."

-Manager for a chain of care homes

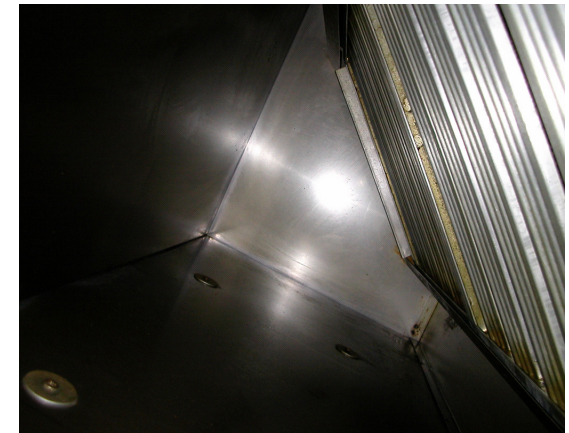

"Just wanted to say thanks for a job well done, really pleased with results and operatives, nice couple of guys. Many thanks."

-Blue chip company

SHS SPECIALIST HYGIENE SERVICES LTD

Kitchen Deep Cleaning.

- Periodic maintenance service to degrease, decarbonise, descale and thoroughly deep cleanse items of structure, ventilation and equipment in commercial catering facilities.
- Surveys will be carried out by a qualified adviser and will be provided free of charge with a full break down of structure, ventilation and equipment.
- Site specific instructions together with any hazards or excessive build ups will also be recorded. Equipment will be examined for signs of infestation and reported if found.

Kitchen Grease Extract Cleaning.

With the introduction of the new fire safety law i.e. Regulatory Reform (Fire Safety) Order 2005 grease extract ductwork cleansing has never been so important. We provide a full schematic drawing produced with a written survey and risk assessment, **FREE of CHARGE**, together with our quotation. All work carried out follows the latest guidance to good practice TR-19 by the HVCA. The service looks at the grease extract system from the

point of entry via the canopy, filters through the ductwork run to air. Before and after clean photographs are taken of the system ducts.

As one of the leading experts in grease extract ductwork cleansing this service is designed to significantly reduce the grease

and carbonisation associated with extract ducting from the point of entry to atmosphere. Each treatment will reduce the hazards of flash fire and enhance the extract flow of air.

Washroom Deep Cleaning.

Descaling and sanitising of sanitary units, and fittings to remove Progressive build-up of deposits on a periodic routine basis, essential to ensure maximum hygiene in communal facilities - including primary pipework.

Sanitary ware treated includes channels, drinking fountains, gullies, overflows, sinks, showers, traps, troughs, washbasins, waste, soil and sparge pipes, urinals and water Closets. All surveys and quotations are confidential and **FREE of CHARGE**.

Sanitary Dressing Disposal and Servicing

A full sanibin provision and servicing solution for commercial premises and restaurants alike. Once installed bins are frequently serviced reliably and discreetly.

As a licensed Waste Carrier we remove the waste to a specifically allocated controlled clinical waste site for proper disposal; a service receipt is signed on site and is retained as required under the Duty of Care Regulations. All surveys and quotations are **FREE of CHARGE**.

Additional services.

- Canopy cleaning.
- Canopy filter laundry service.
- Floor and carpet cleaning.
- High level cleaning.
- Air freshener & dosing systems.
